CONTENTS

NO. 1 FEBRUARY

C. I. E. Smith, R. Grubb, L. Hammarström and G. Matell. *Gm* allotypes in Swedish myasthenia gravis patients 1

L. P. Osipova and R. I. Sukernik. Immunoglobulin allotypes in aboriginal populations of the Taimir Peninsula 11

G. W. Warr, G. R. Vasta, B. E. Ledford and J. J. Marchalonis. Evidence for the existence of a diverse family of immunoglobulin-related recognition molecules 17

M. J. Giphart and J. D'Amaro. HLA and reproduction? 25

K. Matsunaga, K. Tani, K. Katoh, Y. Ishigatsubo, T. Iwaku, I. Tadokoro and K. Okuda. Genetic control of PQ prolongation of the electrocardiogram in the mouse immunized with the killed group A streptococci 31

E. K. Barrie, R. H. Fraser, A. C. Munro, A. R. Williamson, E. A. Hamilton and R. Mitchell. Monoclonal anti-B produced by the immunization of mice with soluble salivary glycoproteins 41

M. J. Giphart, B. Morolli, W. van Vreeswijk, R. Gerrets and H. Balner. The major histocompatibility complex of Rhesus monkeys, RhLA:XV. Chemical characterization of DR locus antigens and antigen 48 45

S. J. Geyer, T. J. Gill III and H. W. Kunz. Ovarian defect in rats carrying the growth and reproduction complex 55

K. Bender, S. Bissbort, A. Mayerová, G. Mauff and T. F. Wienker. *C6* linkage studies 61

T. T. Sullivan and Carol M. Warner. Genetic control of the immune response to human adult haemoglobin (HbA_1) and sickle cell haemoglobin (HbS) 69

Book Review 83

NO. 2 APRIL

P. E. Polani and M. Adinolfi. The H-Y antigen and its functions: a review and a hypothesis 85

G. L. Daniels, G. Banting and P. Goodfellow. A monoclonal antibody related to the human blood group Gerbich 103

W. Van Eden, D. Elferink, R. R. P. De Vries. An approach to study *in vitro* the expression of HLA-encoded genetic factors predisposing to tuberculoid leprosy . 107

D. Ballinari, M. A. Pierotti, M. Luisa Sensi and G. Parmiani. Lack of *H-2L*^{d} locus products on a BALB/c fibrosarcoma expressing H-2^k-like alien antigens .. 115

I. Hilgert, H. Krištofová, D. P. Angelisová, R. Kinský and V. Hořejší. Adult transplantation tolerance induced by lentil lectin—III. Induction of transplantation tolerance by lentil lectin in mouse strain combinations with different H-2 disparities: tolerogenic effect of H-2D region antigens 127

C. R. Young and M. Z. Atassi. T-lymphocyte recognition of sperm-whale myoglobin. Recognition of synthetic peptides carrying antigenic site 5 by myoglobin-primed T-cells 139

C. R. Young and M. Z. Atassi. T-lymphocyte recognition of sperm-whale myoglobin. Responses of T-cells from mouse strains primed with synthetic peptide carrying antigenic site 5 and relation to antigenic preparation 151

C. R. Young and M. Z. Atassi. T-lymphocyte recognition of sperm-whale myoglobin. Specificity of T-cell recognition following neonatal tolerance with either myoglobin or synthetic peptides of an antigenic site 161

Book Reviews 171

NO. 3 JUNE

R. L. Sparrow and I. F. G. McKenzie. Human 'Ia' antigen populations defined by monoclonal antibodies 179

S. L. Tonkonogy, E. M. Rinchik and D. B. Amos. Analysis of the B10.D2-*H-2*^{dml} mutant with monoclonal antibodies 191

B. Budowle, J. M. Roseman, R. C. P. Go, W. Louv, B. O. Barger and R. T. Acton. Phenotypes of the fourth complement component (C4) in black Americans from the southeastern United States 199

A. N. Helal, G. Lefranc, G. Hauptmann, J. Goetz, M-M. Tongio, C. Davrinche, C, Rivat, B. Cavelier, J. Chibani and H. Chaabani. *HLA A*, B*-BF** and *C4 A*, B** allele associations, with special reference to *BF**SO7, in the Tunisian population 205

G. Forni, M. Giovarelli, M. Sarzotti and A. C. Whitmore. Rous sarcoma virus-induced tumours in mice II. Contribution of H-2 and non-H-2 alloantigen barriers to tumours immunogenicity *in vivo* 209

R. R. Skelly, K. R. Bray, M. E. Gershwin, F. Dumont and A. Ahmed. Studies of congenitally immunologically mutant New Zealand mice VIII. Cell-surface phenotype of spleen cells of *X*^{id} and *nude* mice 221

G. M. GEBRIEL AND A. W. NORDSKOG. Genetic linkage of subgroup C rous sarcoma virus-induced tumour expression in chickens to the *IR-GAT* locus of the *B* complex 231

R. R. SKELLY, A. AHMED, P. MUNKENBECK AND D. C. MORRISON. Immune responses to hapten-lipopolysaccharide conjugates in mice 237

SHORT COMMUNICATIONS

R. CONTE, F. LAURIA AND P. ZUCCHELLI. HLA in familial Hodgkin's disease 251

G. L. DANIELS AND R. W. KNOWLES. Further analysis of the monoclonal antibody H8 demonstrating a JMH-related specificity 257

ANNOUNCEMENT 259

BOOK REVIEWS 260

NO. 4 AUGUST

T. J. GILL III, D. V. CRAMER, H. W. KUNZ AND D. N. MISRA. Structure and function of the major histocompatibility complex of the rat 261

M. R. LAURENT AND K. I. WELSH. Genetic markers in rheumatological diseases .. 275

H. BAZIN, B. PLATTEAU, J. P. KINTS, J.-M. MALACHE AND R. PAUWELS. Genetic regulation of immunoglobulin synthesis: selection of two rats' lines with respectively a high or low IgM serum level 293

J. BERTRAMS, L. SCHOEPS, M. P. BAUR, W. LUBOLT AND E. VAN LOGHEM. IgG and IgA heavy chain allotypes in type 1 diabetes 305

J.-P. SALIER, J.-M. GOUST, H. LINK, J. P. PANDEY, M. DAVEAU AND H. H. FUDENBERG. Latent immunoglobulin G (Gm) allotypes: occurrence in the cerebrospinal fluid in some neuropathological states 311

P. YOUINOU, J. L. GOLMARD, L. RIVAT-PERAN, D. SALMON, G. LE MENN, J. RUFIE AND C. SALMON. The incidence of Gm and Km allotypes in a group of Bretons, the Bigoudens 319

Y. AIHARA, S. SAKATA, S. NAKAMURA, K. KAMIKUBO, O. TARUTNAI, S. YAMADA, I. TADOKORO AND K. OKUDA. Genetic control of mouse antibody production to human thyroglobulin 325

PH. ROUGER, H. LEE, G. JUSZCZAK, C. DOINEL AND L. EDELMAN. Murine monoclonal antobodies against Gerbich antigens 333

SHORT COMMUNICATION

M. P. COLOMBO, M. RODOLFO AND G. PARMIANI. H-2K restriction of a chemically-induced BALB/c fibrosarcoma 337

BOOK REVIEWS 341

NO. 5 OCTOBER

A. G. DEMAINE, R. W. VAUGHAN, A. R. BEHN, A. B. MYLES, G. S. PANAYI AND K. I. WELSH. Immunoglobulin (Gm) allotype frequencies in patients with giant cell arteritis and polymyalgia rheumatica 343

S. YAZAWA AND K. FURUKAWA. Immunochemical properties of human plasma $\alpha 1 \rightarrow 2$ fucosyltransferase specified by blood group H-gene 349

P. NANNI, M. P. COLOMBO, C. DE GIOVANNI, P.-L. LOLLINI, G. NICOLETTI, G. PARMIANI AND G. PRODI. Impaired H-2 expression in B16 melanoma variants . 361

D. L. WASSOM, B. O. BROOKS, J. G. BABISH AND C. S. DAVID. A gene mapping between the *S* and *D* regions of the *H*-2 complex influences resistance to *Trichinella spiralis* infections of mice 371

D. N. MISRA, H. W. KUNZ AND T. J. GILL III. Immunochemical evidence for multiple class I antigens coded by the MHC of the rat (RT 1) and their differential expression on red blood cells and lymphocytes 379

G. F. MITCHELL. Murine cutaneous leishmaniasis: resistance in reconstituted nude mice and several F_1 hybrids infected with *Leishmania tropica major* 395

J. J. BONNER AND M. L. TYAN. Map of major histocompatibility complex subregions influencing vaginal septa frequency 413

BOOK REVIEWS 417

NO. 6 DECEMBER

K. TOKUNAGA, Y. YUKIYMA AND K. OMOTO. Polymorphism of the complement component C6 in Japanese 419

B. D. BRONDZ, M. B. ZAICEVA, I. F. ABRONINA AND Z. K. BLANDOVA. Inactivation of specific anti-H-2 suppressor T cells by antisera to *I-J* and *I-C* subregion products of the *H-2* complex 425

T. NATORI, T. OHHASHI, T. INOMATA, Y. FUJIMOTO, Y. ISHIDA, M. KASAHARA AND M. AIZAWA. Immunochemical evidence for multiple B units of the class II molecule in the rat 439

C. R. YOUNG, H. E. SCHMITZ AND M. Z. ATASSI. Genetic control of the immune response to myoglobin—XVI. Control of antibodies with preselected specificities following immunization with free synthetic peptides representing the antigenic sites or surface non-immunogenic locations in the protein 453

C. C. CHENG, K. SEGE, A. K. ALTON, D. BENNETT AND K. ARTZT. Characterization of an antigen present on testicular cells and preimplantation embryos whose expression is modified by the t^{12} haplotype 465
